Survey Evaluation Results

Dear Mr./Dear Ms Assessment,

In the attachment you will find the evaluation results of the survey SUSLA Evaluation.

Questionnaire GES2014:

The overall indicator is listed first. It consists of the following scales:

- **How useful were the following components of the College Success Course in contributing to your success at SUSLA?**
- **Satisfaction with University and Academic Support Services**
- **Satisfaction with Instructors in Major**
- **University Contribution to Knowledge, Skills and Personal Development**

The overall indicator is followed by the individual average values of the scales mentioned above. In the second part of the analysis the average values of all individual questions are listed.

If you have any further questions do not hesitate to contact the evaluation department.

2.6) **Is there anything that SUSLA could have done to assist you?**

- SUSLA employees could have been more understanding.
- ---
- Additional online classes in place of traditional classes with limited seating and/or scheduling.
- All assistance given was adequate
- All of the teachers and staff were helpful
- Assist me with transfer information.
- Been more compassionate for students that want more and want better out of life but can't receive or don't qualify for financial aid assistance and here at SUSLA if you don't qualify you can't take out any loans which you the student will be responsible for paying back so you feel as though you are left without any options to do something positive. I'm not only speaking for myself but others as well because I almost gave up because I thought I couldn't qualify for any assistance and the assistance that I got did not come from SUSLA which is sad.
- Better Educational Aids for Nursing Students
- Better classroom environment. The classroom was often full of buckets at the metro due to ceiling leaking and temperatures were never stable.
- Better communication and organization. (3 Counts)
- Better communication skills
- Better counseling services
- Better with the financial aid assistance. Professionalism is a class that most of southern workers need to take. Rude and nasty is the name for some but not all.
- EVERYTHING WAS GREAT
- Everybody here was kind, courteous, understanding and willing to help out with whatever I needed
- Everyone I ever dealt with throughout my education was very eager to help me.
- Everything was great. I had an excellent time at Southern.
- Everything was taken care of accordingly.
- Funding Me a Visit to The Institution that I would love to attend next, but do not have the funds to go and see for a tour.
- Give students more information
- Helped me with stuff that I didn't understand or guided me.
- I appreciate SUSLA for accepting me as a student. The staff deserve a pat on the back for its excellence.
- I feel that SUSLA could be more hands on, several things I had to figure out for myself, even with the help of advisors. Also several times there's multiple places to go and you are usually given very inconsistent information.
- I feel that the academic advisors were not thoroughly aware of their job role as they made me take several classes that were not within my business academic requirement for graduation
- I like the staff at Southern. They truly want to see their students succeed . I really feel I learned something. Excellent school to attend.

- I think they did every thing well.
- I wish I had more options for financial assistance being that I don't qualify for financial aid
- I wish the program I was in was more suited to working, nontraditional students. I had to quit work in order to attend classes. This put my finances in a bind.
- I'm continuing to graduate.
- Improve processes
- Instructors were not to friendly or got angry if you approached them with concerns.
- It was nothing Susla could have done to assist me at that time.
- It would've been much easier if there were more than one instructor teaching Human Services courses.
- More friendly teachers and people with respect .

- yes, better communication, on graduation process, being that Allied Health is not on the main campus, and we are left out on alot of things.
- yes, but far too much to list
- yes, remediation

2.8) **Why did you change your major?**

- BECAUSE I WANTED TO DO RESPIRATORY INSTEAD OF NURSING
- Because I did not meet the requirement for the N-CLEX entrance exam for the RN program here at SUSLA University
- Because I wanted to do Biology.
- Because, i wanted to have a major in biology and nursing.
- Computer science was more my understanding
- Concentrating on a field of study.
- Could not get in Dental Hygiene clinical program
- Could not keep up with the studies of Nursing while undergoing chemo.
- Couldn't attend clinical
- DIDNT WANT TO BE IN MEDICAL FIELD
- Did not like the medical field of nursing.
- Did not successfully complete the Radiology program and I would have had to start the program from the beginning.
- Didn't want to start over
- Dropped my major at Southern University Baton Rouge
- For a biology degree, the more senior courses were offered in certain semesters. I knew I wanted to finish at a certain time so therefore I opted to pursue a degree that I could obtain in a certain amount of time instead of waiting another semester to take 1 or 2 courses.
- Getting into clinical
- Had to wait until next year to go back.
- I CHANGE MY MIIND
- I CHANGED MY MIND.

■ I WAS UNDESIDED

- I attended in 2000 as a business major once I came back in 2012 I changed to radiology.
- I became interested in another one.
- I change my major because I want to get the best out of my education as possible.
- I changed it because the classes I was taking didn't match to my other major.
- I changed my major because I didn't get in the nursing program.
- I changed my major because I figured sports medicine wasn't for me.
- I changed my major because at first I didn't really know what I wanted to do in life. (2 Counts)
- I changed my major, because I realized that Nursing was not for me.
- I changed my mind in the field I wanted to work in.
- I couldn't figure out what I wanted to do for the rest of my life.
- I did not get accepted into the program I was trying to get into
- I did not get accepted into the program that I was trying to get into
- I did not want to fool myself and take a profession I could not keep up with the pace
- I had an error on my registration form, I changed my major when I found out.
- I had miscarriage with my fist major and my professor didn't think I was emotionally and physically ready to proceed and the class was starting clinicals the following semester, so to pass the time I started something else.
- I had to wait out a year and was going to do Radiology but decided not to
- I knew I wanted to be involved with helping others, but I believe going into the Human Service field is a better fit for me.
- I lost interest
- I lost interest, I was looking for a hands-on field of study
- I realized that respiratory was not for me.
- I realized who I was and what I really wanted to do.
- I wanted to pursue a degree in criminal justice
- I was closer to graduating with a General studies of Science degree instead of a General studies of Biology.
- I was stuck between figuring out what I actually wanted to do in life and what I was passionate about.
- I was undecided at first
- I was unsuccessful in the RN Nursing program. I decided to not sit idle and final another path to take.
- I went to another school before
- IM NOT REALLY INTO NURSING
- Initial major was general studies. I chose it because I had not decided on a particular field of study but I knew this major would encompass many core classes for most other major.
- It wasn't what I wanted to do In life.
- Just wanted to go back to nursing
- Mr. Lewis was my accounting professor and I fell in love with accounting world he exposed me to.
- My mother has three children and two of them are nurses as well as my mother so I wanted to do something different than Nursing and I chose Respiratory Therapy. (3 Counts)
- No evening clinics were offered

- Nursing wasn't for me
- Research the job market for business majors and really wasn't able to find anything I would enjoy
- Sabotage of grades from instructors. not satisfied with the instructors or the programs.
- So I could graduate sooner
- Started in the field of surgical technology
- Started wasting credit hours on classes I didn't need just to stay in school.
- The major I was under was the wrong major.
- The major was not what I wanted and unnecessary classes that I didn't need .
- WASN'T REALLY INTERESTED IN THE FEILD I HAD CHOSEN AT FIRST
- Waiting to get into clinicals
- at one point I wanted to work in law inforcement and decided to pursue a business degree.
- because I didn't like it
- because of the market.
- changed mind
- changed my mind
- changed my mind
- changed my mind on what I wanted to do
- changed my mond
- clinicals were overwhelming
- couldn't get a high enough score on the nIn and since I pay out of pocket, I decided to just get my general studies degree until I can pass.
- decided to do something different
- didn't have what i was majoring in here
- didn't have the grades for that field
- didn't want to be a teacher no more
- different fiels
- different interest
- failed a course in clinical. Had only two semesters for financial aid to pay.
- found a different passon
- it just made since for me to get a degree in what I do everyday.
- kept adding to ciriculm
- my previous one was just to continue my high school skills I graduated with.
- n/a
- no change
- no reason
- no sure
- nursing student waiting on clinical (2 Counts)
- other fields

- the waiting list for nursing clinicals was long
- they offered a program that I was more interested in
- thought I wanted to do something else
- to pursue better opportunities
- waiting to get into nursing clinicals
- wanted to work in the operating room
- was not something I was interested in
- wasn't able to successfully complete a course
- wasn't happy with my first option.
- wasn't sure what I wanted to do then I found out and changed it to that.
- wasn't what I wanted to do (2 Counts)
- when I started school my career choice was forensics. SUSLA doesn't offer forensics so I chose a degree path in biology. Biology/science isn't really a subject that I can relate to. I decided I want to do more with juveniles. So I changed my major to criminal justice.

11. Comments

^{11.1)} Please provide any additional comments:

- I enjoyed Southern University at Shreveport and wished this was a 4 year university. I love attending here.
- All instructors should be utilizing tools like moodle and they are not.
- Although this has been a process, I wouldn't choose any other institution to complete my degree program. Southern has taught me so much and provided me with the tools I need to continue life and furthering my education, if I choose. The professors are caring, nurturing, and very knowledgeable and will be greatly missed. I am thankful for this opportunity.
- Communication about important information should be shown on the information boards and televisions more and not just on social media because everyone is not linked to the school on social media. The dean and chancellors need to be seen more and interact with students so that students know who they are.
- Great school learned a lot.
- I am glad it's over for me and Susla
- I am pleased that I made the choice to attend SUSLA
- I enjoyed SUSLA but I just feel things could be more organized and easier to access, the beginning is always very stressful. Upon choosing SUSLA it was a last minute decision and I am not from Shreveport. I live hours away, for the first week of classes starting I was not able to contact anyone directly in admissions (in the gym) and I hopped out on a limb and came here but the process was very stressing.
- I enjoyed my time at SUSLA and I am grateful for some of the things I learned attending here.
- I have always attended HBCU's, but I do not feel that the education I have received at SUSLA has prepared me for the field of study that I have selected. I believe that Administration needs to take a closer look at the programs and hold Department Heads more accountable for the success of their departments.

- I have enjoyed my experience with the nursing program at Susla & my nursing advisor was very knowledgeable & supportive throughout the nursing process. I would recommend the nursing department to a friend. However, the lack of organization at the main campus vs metro campus is a very frustrating factor in my experience at Susla. (3 Counts)
- I really enjoyed my experience here at SUSLA I met some wonderful people while attending this school. I am very happy to say that I graduated from SUSLA.
- I really enjoyed my instruction here at Southern University of Shreveport.
- I think that the university as a whole should uplift one another and embrace the school spirit;
- I will be coming back to become a nurse
- I wish I would have done it sooner
- I would not recommend this school to anyone. it has been nothing but a horrible experience and the only reason I stayed was because it is difficult to change nursing programs while in the middle of one.
- Keep up the wonderful work!
- LIFE IS TO SHORT TO BE WORRIED ABOUT HOW SHORT LIFE IS
- Lack of organization. Campus activities are scheduled at times where students are supposed to be in class, so we have to choose between classes or activities.
- M years at Southren University was a good ride and know it's time to move on to bigger and better things. i enjoyed myself while attending southern now it's time to say bye. Bye Southern University,hello North Western
- Make sure metro campus is more involved in the news on main campus
- My degree is General Studies with a concentration in Elementary Education
- My personal experience at SUSLA has been very helpful to me.
- N/A (2 Counts)
- NEED TO BE BETTER ORGANIZE OVERALL IN ALL DEPARTMENTS
- None
- Over all it was good.
- SUSLA is one of the best places I have ever been. Equal opportunities to be a student leader, Miss Susla, President of many different school club its up to you LOVED IT EVERY STEP OF THE WAY
- SUSLA is the best!!!
- Some instructors at the metro are horrible and need an attitude adjustment. No one can learn under that we already know that they are smart that don't have to beat you down with a stick if you don't know.
- Susla is a good school.
- Susla is a great school. I have attended LSUS and never received so much help, with open arms there. I enjoyed learning because the professors made learning fun and easy. They made sure every student was on board before moving on to the next topic. The professors broke down the material step by step to ensure everyone in the class understood. I wouldn't change my school for the world! Best experience ever!
- THANK U Mr. Collins FOR BELIEVING IN ME.
- The Allied Health professionals at the Metro center should be informed about more on campus activities, being that we are never on the main campus we do not know what is going on.
- The function of the University is unorganized. Need to look at the functions as a whole. (2 Counts)
- The only instructor through out my entire time spent at SUSLA that was worth his weight in gold was Kirk Grain. Reading power points and directly from the textbook to students is not teaching. I can read and look at power points at home. What the school needs so badly is people who care about what they are doing.
- They need people in place that specifically help students that want to go to school and not become a statistic, rather they don't have a support system or somebody telling them what they need to do to take that first step or if they messed up somewhere along the line and can't get AID to help pay tuition. Southern should leave it up to us students rather we want or need to take out a loan through a bank to help pay for our schooling.

- This has been a wonderful experience for me I thank everybody here that made that possible.
- This school does not show respect for time. The workers are rude and they forget that we pay for this education and it's not free. The workers act as if they pay the student to learn.
- This school will be missed!
- This was a great experience!
- Upon attending Southern University, I feel college is something everyone should experience. I'm glad I had the opportunity to experience it. Nothing like it. I am very thankful.
- classes on modesty would really benefit the men and women students. due to the lady students "cat- walk" fashion's, that focus on tight clothes and more exposed skin is counter productive against learning. classes and discussion's on modesty brings many benefits to men and women. thank you for your time.
- financial aid is HORRIBLE !
- good school
- i enjoyed my time here.
- improve financial aid and communication with students.
- in some classes i needed more one on one help but was unable to get it
- it has been fun
- keep up the good work
- metro center students should be more aware of things going on at the main campus
- n/a (6 Counts)
- na
- none
- susla needs people with good speaking skills
- susla was very helpful i plan on re-enrolling for the fall.
- thank you
- the only negative thing I can say about Susla is that the financial aid office, some of the workers in there are really unprofessional and I hated dealing with them.
- this is the most unorganized school I have ever been to. Registrar office and admissions constantly loose important records. The financial aid quiz you have to take upon graduation should not be required if students are paying out of pocket. It is none of Southern University business how I manage MY money and pay for my school
- very good school
- very unorganized
